Dear Mr. Cannon,

I reviewed your hazard tree removal application for a 7'6" diameter redwood tree located at 1041 NE 100th St. Thank you for providing a second arborist report, which confirmed the presence of internal decay and quantified the associated strength loss by using a combination of sonic tomography and resistance drilling. In light of the updated information, SDCI approves your application to remove the tree.

Please ensure that the company removing the tree has a copy of this determination letter on-site.

Thank you.
